22.10.2013 TUESDAY

- 8:30 Tour around the Black Sea Region
 We are going to visit the following places:

Shabla - Green Training Center

Bolata and Taukliman

To the north of Kaliakra are located two small wet zones – Bolata and Taukliman ("The Bird bay"). Here nest interesting water-like birds – small water bull, small loon, ducks. Immeasurably abundant are these places during the spring, when more than 150 species of birds stop for rest and feeding.

Kaliakra cape

Kaliakra cape is one of the most beautiful places along the Bulgarian sea coast. Kaliakra is proclaimed for protected territory because of its enormous beauty – it is a unique combination of steep cliffs and crystal clear sea waters. The region is famous and for the dolphins, the great diversity of sea birds, which nest at the cliffs. The big opulence of the flora and the fauna in the region of Kaliakra cape is due mostly to the ecologically clean zone, untouched by human activity and because of this reason it has preserved its original beauty. Stretching over more than two kilometers at Black Sea, Kaliakra is famous as the longest cape at the Balkan Peninsula.

Balchik - University Botanical Garden

The Botanical Garden spreads over an area of 190,000 m² and accommodates collections with over 3500 plant species. In 2005 the area of the garden was declared a protected area - "a characteristic landscape, created by the harmonious coexistence of man and nature." Here professionals and amateurs can observe the natural ecosystems and appreciate the rich biodiversity of the region.

Balchik - Architectural Park Complex – The Palace

The Palace is the former summer residence of the Romanian Queen Maria Alexandrina Victoria de Edinburg (1875 – 1938). The residence was constructed by the Italian architects Amerigo and Augustino in 1924. Chapels, yards, fountains and buildings in various styles were built – in typical Bulgarian, Byzantine, Roman and Arabic, Mauritanian, Transylvanian, etc.

Lunch – the host students will prepare a lunch pack for their guest students. The teachers will have a lunch in Kavarna or Balchik

Arriving in Dobrich at 17:30.

Students are going home.

19:00 Dinner
