

# COMENIUS PROJECT „NATURE AND ITS MAGIC SOUNDS“

Pärnu-Jaagupi gümnaasium, Estonia  
Before and after Comenius project „ Nature  
and its magic sounds“

Education and Culture DG

Lifelong Learning Programme

# **What did the project give to our students and teachers?**

- **The most important is that all the teachers and students involved the project were satisfied with the project. They got enormous experience in learning about the culture, ways of life and schooling in those countries.**
- **The project increased students' and teachers foreign language skills, broaden their mind and taught to be open-minded and tolerant.**
- **The topics of the project raise the interest and awareness of the students in environmental problems.**

# Our activities

The first task was to arrange logo competition at school. A lot of students from different ages took part in that. Here you can see some of them.

- **We carried out a survey about Environmental awareness. 25 students and 3 teachers answered the questionnaire. We did it at the beginning of the project and now, at the end of the project.**
- **It is good to notice that our students awareness about environmental issues has been increased**

- **Students were designing eco T-shirts with Comenius project logo. And 2 of them were taken to Turkey**

# **Our students Egne ja Hilde arranged nature - photo competition at school**

- The Students recorded different sounds of nature. They enjoyed the recording process very much.

Besides, we have worked on the topics „Protected species of Estonia“ “Degradation of Estonian landscape“, „Renewable energy“

# MEETINGS

**There was held 10 meetings during our project, we visited 5 of them. 11 students and 11 teachers have got opportunity to visit our partner schools**

# Our visits

First meeting was held in Seville, Spain. 2 teachers and 2 students participated from our school.

We visited Agen in France in February, 2013. We participated with 2 students and 2 teachers

The third meeting was in Turkey, in Kayseri. 5 students and 2 teachers from Estonia. For that meeting we were working on the topic „Pollution in Estonia“

The next meeting we visited was in Bulgaria, in Dobrich in October 2013. 2 students and 2 teachers.

We visited Guadeloupe, in January 2014. 3 teachers. It was the first time for our teachers to be in Caribbean region and to feel tropical climate. It was unforgettable experience.
